

Crawford and Associates continues financial support for municipal officials

Scholarship Grows for Municipal Finance Officials

In October 2007, Crawford and Associates, P.C., established a permanent endowment fund with the Oklahoma Municipal Clerks, Treasurers and Finance Officials (OMCTFOA) to provide a permanent funding source for training scholarships for municipal officials and staff. The initial contribution was \$10,000. Crawford and Associates contributed an additional \$10,000 more to this endowment at the OMCTFOA annual conference in October 2009 for a total of \$20,000 of permanent principal. The OMCTFOA extends a big "THANK YOU" to the Crawford's. They are great supporters for municipal finance officials throughout the state.

Every town and city recognizes the importance of training, but the costs of making it happen can be prohibitive at times. It is Crawford and Associates hope that over time, they will see the earnings from the principal endowment grow and be an available resource for cities and towns that have difficulty funding registration and travel costs related to training. They believe in giving back to towns and cities with whom they have done business with for so many years and continuing to build upon the professionalism of municipal finance within Oklahoma.
